

BROOKLYN AUDIO

Prospect kick

Description:

The Prospect kick is developed as extension for the Prospect top and as subwoofer for smaller applications with all Brooklyn-Audio top and full-range cabinets.

The powerfull onboard class-D amp-module with DSP guarantees optimal performance.

4 different presets for every combination with other Brooklyn-Audio cabinets

Transducers:

Low: 15" neodymium cone driver with water resistant cone
Voice coil: 4"

Acoustical:

Maximum peak SPL: 136 dB (kick preset)
Usable bandwidth: 35-100Hz (sub preset) 60/100-250/600Hz (kick presets)
Directivity: Omni directional

Physical data:

WxHxD: 530x700x530mm
Weight: 32 kg
Material: 15mm birch plywood
Finish: Black PU coating*
Grille: Steel powdercoated
Rigging: M20 pole mount

Amplifier:

Power: 1500 watt class-D amp-module
DSP: 24 bit 48kHz AD/DA conversion and 26 bit processing
Gain: 32 dB
Voltage gain: x 80
Input impedance: 10 kOhm
Input sensitivity: 1,15V/3,43 dBu
Max input level: 15 dBu
AC mains power: 90-400V, 50/60Hz
Protection: Thermal shutdown, short circuit/overload/HF output clip limiter, permanent signal limiter, temperature controlled fan
Max enviroment temp.: 40°C
Electrical connections: Powercon in and out, XLR in and out.
